July 2, 1973

To: All Elec-Trak Tractor Dealers

Enclosed you will find a mower motor spare parts price list dated July 2, 1973, that supercedes the spare parts price list forwarded to you in my letter of April 20, 1973.

The April 20, 1973, price list contains a number of errors in prices shown and is to be destroyed. Prices as presented on the enclosed price list are accurate and are to be included with the other pricing information contained within the Product Service Manual.

There are a number of parts for the 211A3435G1 mower motor that are available only as reconditioned parts. These parts are indicated by an asterik on the attached price list. Also, these parts have been marked with an "RC" for ease of identification.

Reconditioned parts are not to be used for in-warranty repair. The complete mower motor should be replaced in warranty whenever any part needs replacement and only reconditioned parts are available.
