

No. 71-15

April 23, 1971

ROBERT C. BOLENG has been recently appointed Manager of Test and Evaluation for OPEO.

A graduate of Rensselaer Polytechnic Institute, he received a B.S.M.E. in 1963, and an M.S., in Management in 1965.

Joining General Electric in 1956, he has had assignments in Data Reduction and Marketing at Malta Test Station, and Technical Documentation, Standards Engineering and Components Engineering at Ordnance Systems in Pittsfield, Mass.

Bob, his wife, Gail, and their three children reside in Pattersonville.

GERALD I. PALMER has joined OPEO as Quality Control Engineer-Systems. A native of Boston, Mass. area, he received his B.S. degree in Industrial Engineering from Northeastern University and joined General Electric in 1961 on the Manufacturing Training Program with assignments in Lynn, Mass., Burlington, Vt., and Louisville, Ky.

Since coming to Schenectady in 1964, he has held various positions in the Schenectady Utilities Oper., the Schenectady Relations Oper., and most recently that of Quality Control Engineer with the Machinery Apparatus Operation.

Jerry, his wife, Florence, and four children reside at 808 Charles Street, Scotia, N. Y.

MARLIN STANLEY recently joined OPEO as a Technical Specialist-Mechanical, in the Advanced Development Area of Engineering.

Before coming to OPEO, Marlin was a Foreman in the Large Machining Area of Steam Turbine and a Welding Methods Specialist in the Bucket Sub-Section. He is also a graduate of the General Electric Apprentice Training Program and has fifteen years of service with GE.

Marlin, his wife Claudia, and their daughter reside in Amsterdam, N. Y.

NEW VENDING MACHINES IN BLDG. 702

On Friday, April 23, present vending machines will be removed to be replaced with new machines provided by the Canteen Corporation. Installation of the following new machines will begin on Monday, April 26.

1 - Sandwich	2 - Pastry
1 - Coffee/Tea	1 - Candy
1 - Milk	1 - Coca-Cola
1 - Ice Cream	1 - Cigarette

Most of these will be operable by the end of the first shift on Monday.

QUALITY CONTROL REMINDERS

- Recently an incident occurred which points out the need for quality awareness in each and every employee. A crate of battery box covers was apparently dropped and as a result 37 out of a total of 50 covers had to be scrapped. This is an example of how the actions of an individual can and did adversely affect quality and the cost of our manufacturing operation.
- Instruments and test equipment may, during the course of normal operation, become defective or lose accuracy. Employees are asked to notify their foremen immediately if they question or even suspect the accuracy of any test equipment. Prompt notification can help keep defects to a minimum.

SUGGESTION AWARDS

Lon Buchalski	-	\$10
Don Gronczniak	-	\$10
Arnold Lape	-	\$10

SAVINGS AND SECURITY PROGRAM "STOCK PRICE" AND "FUND UNIT PRICE"
for each month of 1971 so far are as follows:

<u>Month</u>	<u>Stock Price</u>	<u>Fund Unit Price</u>
January	\$ 96.994	\$26.374
February	104.645	27.546
March	110.043	28.132

SPORTS FLASH ---

Reports from Holy Mountain Seminary say that the Downstairs Bad Lads softball team, OPEO's undefeated champs, have successfully completed their spring training session and meditation retreat. With the pending change to Daylight Savings Time, this weekend, DBL is offering a softball clinic, open to any OPEO personnel who might dream of one day playing in the same league with the lads from downstairs. Time and place will be posted soon.
