

Only One Opportunity for all of 1973

You must order now if you want the new model AV 75 Lawn Vacuum. Additional quantities will only be available later in 1973 if the initial orders are sufficient to justify production. (1)

Features

- For use with the GE Elec-Trak front-mount side discharge mower.
- Vacuums up 42 inches of grass and leaves.
- . Easy installation - mounts quickly into rear stabler of tractor.
- . Requires rear PTO plug, model KP 36.
- . Powered by GE electric motor.
- . Vacuum can reduce tractor/mower range up to 50% - Auxiliary Power Pack Booster can be used in front for greater range.
- . Vacuum turns on and off with tractor PTO switch.
- . Requires GE Lawn Cart, model AF 12.
- . Cart and cover give 36 cubic feet collection capacity.
- . Easy to remove cart collection material by unzipping rear cover, pulling up cart tailgate and either pulling out or dumping cart.
- . Long side hose can be disconnected at mower and used as a hand vacuum
- . Easy to maneuver and back up when necessary.
- . Warranted for one year against defects in material and workmanship.
- . First available in mid-July.
