

General Electric announces . . .

# A NEW INDUSTRIAL ELECTRIC TRACTOR THAT FORK LIFTS, MOWS, LUGS, SWEEPS, PLOWS, SCRAPES, EVEN DIGS

## CARRIES TYPE E LABEL UNDER OSHA REGULATIONS

This Model I-5 GE Elec-Trak industrial tractor unit is a design that's performance-proved in demanding applications. It's a cordless, electric power center on wheels, with safety interlocks. Foot pedal speed control. Forward and reverse at your operator's fingertips. Human engineered for comfort with a low center of gravity for stability.

The I-5 is Type E approved under Occupational Safety and Health Act regulations. It's designed for both indoor and outdoor use in industrial/commercial locations. It's pollution-free. Quiet. Safety interlocked. With its attachments, the GE Elec-Trak industrial tractor unit becomes a versatile workhorse.

## EFFICIENT ELECTRIC POWER GIVES YOU VERSATILITY

Quick on and off attachments. No belts to hook up or pulleys to attach. Fork lifts, front end loaders, 180 amp welder, vacuums, sweepers, mowers, snow throwers, all powered by their own motors, simply plug into the I-5 for power. What's more, a host of 36-volt portable power tools plug into the Model I-5. With the I-5, welding goes to the work without hookups. With an optional AC inverter, the I-5 even provides 110-volt power for standard hand tools.

## ALL THESE APPLICATIONS FROM ONE MACHINE

**Lifting.** 3 net lifting heights of 48" and 74" fixed mast lifts plus 92" telescoping lift all mount both front and rear on I-5. Each handle variety of accessories — forks, barrel snatchers, etc.

**Hauling.** Up to a 900 pound continuous drawbar. Has pulled a 25-ton locomotive. Electric operation makes I-5 great to pull in-plant maintenance carts. All day operation for most hauling applications, additional range with partial recharge when idle or add-on power pack.

**Mobile power supply.** 36-volt, 220 amp-hr. to operate DC motors for grinding, drilling, chain sawing, etc. Also 110-volt AC inverter available.

**Personnel carrying.** Double seat available for 2 rider capacity, 6 and 9 passenger tow behind personnel carriers available.

**Welding.** Smooth DC arc welder welds on up to 1/2" steel plate or angle. Easily handles emergency jobs in remote locations.

**Vacuuming/sweeping.** Trail-behind vacuums with 30" nozzles easily convert to walk-behinds for those hard-to-get-at places. Also, 4' powered rotary broom to sweep away debris, etc.

**Grounds care.** 500 pound capacity, 40" self-leveling bucket loader attaches in minutes. 42" rotary mower or choice of two different 60" gang reels, 42" snow thrower or 48" blade for winter. Trail-behind electric sweeper for grass and leaves.

**Trash collection.** Self-contained, 48" wide, in-plant refuse compactor for quick, easy refuse pickup and powered emptying. Manufactured and marketed by AMS, Inc. California.

## Specifications Model I-5

Overall length . . . . .	76"
Overall height . . . . .	42"
Overall width . . . . .	36"
Tread . . . . .	28"
Wheel base . . . . .	39.5"
Outside turning radius (without bumper) . . . . .	86"
Weight (with batteries) . . . . .	960 lbs.

Speed Range — Variable speed from 1/4 to 10 mph.

Charger — Built-in — requires 110-volt, 15-amp single-phase-standard grounded outlet.

Major recharge (80%) . . . . .	Approx. 5 hours*
65% recharge . . . . .	Approx. 3-1/2 hrs.
40% recharge . . . . .	Approx. 2 hours

High initial recovery rate when plugged in during idle time. Automatically assures ready-to-go power.

\*charger runs longer for full battery equalization.

Power Pack — 6 six-volt, heavy duty, long-life propulsion modules. Power pack rating — 220 AMP Hrs. @ 20 hr. rate. Add-on 36-volt power pack booster optional for extended range.

## LET US SHOW YOU. AT YOUR PLANT.

All you do is fill out this card, clip it and drop it in the mail. We'll come to your location, at your convenience, and let you put the Model I-5 Elec-Trak tractor to work. Doing the jobs you want it to do.
