## Parts Catalog

**John Deere  
26H, 26T, 31S, 31T, and 38T  
Lawn Sweepers**

**PC-1221**

**AN EXPLANATION OF SERIAL NUMBER LISTING**

Lawn Sweepers are either identified with a "type-serial number" label or a "date-of-manufacture" label. When ordering parts, refer to the six-digit serial number or the four-digit date-of-manufacture number. When writing about or filling out warranty claims, always refer to the model and serial number or date-of-manufacture number. Examples of each label are shown below:

Serial Number: W2261 100001M  
 Type Serial

Date-of-Manufacture: 7505  
 Date-of-Mfg.

Serial number information is listed parenthetically to show on which machines each part can be used. These listings are explained by the following examples.

- ( ) The part can be used on all machines.
- (000000- ) The part can be used on all machines beginning with the serial number listed.
- ( -000000) The part can be used on all machines up to and including serial number listed.
- (000000-000000) The part can be used on all machines between and including the serial numbers listed.

Where XXXXXX's are listed in place of a serial number it indicates a serial number change was made but the exact serial number had not been established when the catalog went to press.

**SI (INTERNATIONAL SYSTEM) UNITS OF MEASURE**

"Metric equivalents have been included, where applicable, throughout this parts catalog".

(Specifications and design subject to change without notice.)
