

KENGRIP®

Garden tractor tire studding kit

Here's a new wintertime service for your customers. The same advantages millions of motorists receive through studded automobile tires are now available for their home and garden tractors too. And all you need to supply this service is a Kengrip Tire Studding Kit.

Step by step directions enable you to install performance proven Kengrip tire studs in tires for General Electric Elec-Trak Tractors and other fine makes. It's a good way to increase your wintertime profits while providing a service your customers are sure to appreciate.
