

Parker
LAWN SWEEPERS

PARKER TRAILETTE

SWEEPS AS YOU RIDE!

More and more homeowners are using riding units for their lawn care. Today's well-maintained, lush lawns must be cleared of grass clippings after mowing to prevent thatch build-up. To meet this increased interest in trailer sweepers, Parker brings you the BIG trailer sweeper that does the BIG sweeping job! Effortlessly sweeps up leaves, too, and all debris. The Parker Trailette features BIG 12-bushel capacity hopper . . . BIG 30-inch sweeping width . . . and E-Z Dump that's BIG on convenience! (This exclusive feature lets you dump the hopper without getting off the riding unit . . . just pull the rope and it dumps leaves, grass clippings, other debris on the spot . . . then returns automatically.) Other Trailette features include: The hitch that attaches to ANY riding unit; steel-backed bassine fiber brushes that give better sweeping, longer wear; heavy-duty steel hood that adjusts to sweep lawns, patios and drives; swivel casters that offer easy maneuverability; heavy-duty canvas hopper with metal bottom and a tubular steel frame that's built to last. For the big sweeping job . . . use the BIG trailer sweeper . . . the Parker Trailette.
